PROFESSIONAL SUMMARY

UX/UI and Graphic Designer with hands-on experience designing SaaS dashboards, mobile app screens, landing pages, and brand identities. Works in Figma (wireframes, interactive prototypes, design systems) and Adobe Photoshop, Illustrator, and InDesign, across SaaS, healthcare, fintech, and lifestyle products. Engineering background (Diploma in EEE) makes it easier to understand technical constraints and turn complex information into clear interfaces. Open to international and remote design roles.

CORE SKILLS

UI/UX Design, SaaS Dashboards, Wireframing & Interactive Prototyping, Design Systems & Components, Figma, Responsive Design, Branding & Logo Design, Social Media Design, Adobe Photoshop, Adobe Illustrator, Adobe InDesign, Client Collaboration

PROFESSIONAL EXPERIENCE

Graphic Designer — Brandex Tech | August 2025 - Present

- Designed logos and brand identities for agency clients across different industries.
- Rebuilt logos that did not represent the brand's audience or tone, so the identity matched the business.
- Redesigned social media posts that were getting low reach, and reach increased after the redesign.
- Managed branding projects from first concept to final delivery, working directly with clients on their business goals.

Graphic Designer (Part-time / Freelance) — Sky2Edu | June 2025 - May 2026

- Redesigned social media posts for a study abroad agency, growing post reach 3x in 2 months.

- Created branding, logo, and print design assets alongside full-time work at Brandex Tech.

Sub Assistant Engineer — E-Touch Engineering Ltd. | 2021 – 2022

- Turned complex technical data into visual reports and presentations that stakeholders could read quickly.
